
National Organization of Life and Health Insurance Guaranty Associations

November 14, 2001

Dear Chief Executive Officer:

As it has for the past few years, NOLHGA is providing the enclosed data regarding insolvency costs to assist the industry in establishing accruals for their respective share of these costs. Beginning in 2001, insurance companies are required to establish a liability and expense for guaranty fund and other assessments when a loss is probable and can be reasonably estimated. Issue Paper No. 35 – Accounting for Guaranty Fund and Other Assessments (finalized December 1999 by the NAIC) and SOP 97-3 – Accounting by Insurance and Other Enterprises for Guaranty Fund and Certain Other Insurance-Related Assessments (released December 1996 by the AICPA) discuss the particulars of establishing these liabilities.

The enclosed schedules provide estimates of the costs for insolvencies in which NOLHGA has been involved. Please review the comments in the beginning of each section, as they will provide a clearer understanding of the data that is presented and of the limitations inherent in these estimates.

Please note the enclosed data is based on estimates that have been taken from a variety of sources. The data has not been traced to appropriate financial statements. ***Furthermore, because the data utilizes estimates, excludes costs incurred directly by the state guaranty associations, and does not reflect the actual timing of assessments from the guaranty associations, it will not agree with the actual state guaranty association assessments. As such, the contents of this report may not be utilized in protesting actual assessments made by the guaranty associations.***

Please forward the enclosed material to the appropriate individual within your company. We hope the enclosed data is useful and informative. If you should have any questions, please contact me at (703) 787 - 4119.

Sincerely,

Paul A. Peterson, CPA, FLMI
Vice President, Accounting and Finance

Overview

General Comments

Please note the following general comments relating to sections within this package.

- **Overview** – lists insolvencies by certain categories and contains summary totals for each category. Note the following general classifications:
 - ***Ongoing Funding Insolvencies***
The insolvencies listed reflect those for which an assumption reinsurance agreement has either been closed or is anticipated to close in the near future and Guaranty Association funding will be required for a number of years beyond year end 2001. Please note Executive Life Insurance Company is the only insolvency currently included in this category.
 - ***Open Insolvencies***
The insolvencies listed are those that are still in an “open” status with no assumption reinsurance agreement closed or those that are anticipated to close in the near future.
 - ***Closed in 2001 Insolvencies***
This category lists those costs associated with assumption reinsurance agreements that have closed during 2001 or with outstanding claim benefits paid by Guaranty Associations in 2001.
 - ***Closed Prior to 2001 Insolvencies***
This category lists those costs associated with assumption reinsurance agreements which have been closed prior to 2001.
 - ***Estates Closed***
This category lists those costs associated with estates that have been closed. No further costs or recoveries should occur.
- ***Key Points***
Provides general comments related to specific insolvencies.
- **Anticipated Funding Schedules**
This section contains Anticipated Funding Schedules for certain insolvencies for which anticipated Guaranty Association funding occurs over a period of time extending beyond year-end 2001. **Particular attention should be given to these insolvencies since Guaranty Associations may fund their participation in an assumption reinsurance agreement through a variety of methods (such as the use of a note or borrowing the funds to accommodate capacity limitations), and it is likely that the timing of actual assessments will not coincide with the enclosed schedules.**
- **Specific Insolvency Costs**
This section lists estimated costs by insolvency. It provides breakdowns by state and account.
- **Assessable Premiums 1988 -2000**
This section contains the Total Assessable Premiums for the period 1988 through 2000, by state, by account, by year. The data is obtained from the final Assessment Data Surveys filed by member companies. The data may be used to estimate your company’s pro-rata share of the estimated costs for all insolvencies. This may be accomplished by calculating your share of the assessable premiums and applying that factor to the estimated insolvency costs.

General Comments (continued)

- **State Guaranty Association Assessment and Premium Tax Offset Provisions**

This report contains general information regarding assessment and premium tax offset provisions by state. Premium tax offsets may be used in calculating your pro-rata share of the total costs, however, recoverability tests should be conducted to determine if the offsets should be utilized in your calculations.

ALL AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and exclude many costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

KEY POINTS

Key Points to Consider

KEY NOTES ON ALL INSOLVENCIES:

- NOLHGA expenses are incurred as of September 30, 2001. Where known, expenses and claims incurred directly by guaranty associations and recoveries from litigation, estate distributions etc. have been included.
 - Neither NOLHGA nor the Guaranty Associations make any representations or warranties as to the accuracy of the enclosed data.
-

Ongoing Funding Insolvencies

This section contains estimated costs by insolvency, by state, by line. The insolvencies listed include those which require Guaranty Association funding beyond year-end 2001.

Executive Life Insurance Company

Reports in previous years presented estimated costs of each guaranty association's liability discounted to September 1993. Beginning with the 1995 report, costs were shown as if Guaranty Associations paid off all obligations by 2001. Under the Enhancement Agreement, Guaranty Associations have the option to make annual installment payments or defease their obligations. Since GA costs grow with interest over time, deferral of Guaranty Association payments through annual installment payments result in higher aggregate (undiscounted) costs than, for example, making a one-time defeasance payment. Obviously, the ultimate aggregate (undiscounted) cost will depend on how each Guaranty Association chooses to fund their obligations.

Consistent with prior years, the current estimate reflects the following assumptions regarding Guaranty Association funding of ELIC obligations:

Guaranty Associations make annual installment payments through 2001.

Guaranty Associations opt to defease with a one-time defeasance payment in 2002 of approximately \$766 million, representing the estimated present value of future obligations otherwise due in 2002 and beyond. The reader should note that the Guaranty Association may extend the payment period beyond 2002 and continue to make annual installment payments until all covered obligations are satisfied.

Discount rates used were approximately 5.32% for all remaining obligations.

Other comments pertinent to the estimates include:

The estimates are net of approximately \$305 million received between 1995 and 2001 from the ELIC Trusts. Future recoveries, if any, from the Trusts cannot be estimated and therefore are not included in this presentation.

The estimates are exclusive of any possible future indemnity charges. Such charges, if any, cannot be estimated and therefore are not included in this presentation.

The estimates include actual administrative charges from Aurora through 2001 and allocated NOLHGA costs through September 30, 2001. The estimates exclude future Aurora administrative costs and allocated NOLHGA costs.

The estimates include actual and projected costs related to Article 22 and 23 of the Enhancement Agreement. While there are no arrangements currently in place to defease such obligations, the estimates assume that the present value of such costs is paid in 2002.

Executive Life Insurance Company (continued)

Because of the uncertain nature of the Guaranty Association obligations, the schedule included in the Anticipated Funding Schedule Section for Executive Life MOST LIKELY WILL NOT coincide with actual assessments from the guaranty associations as a result of (a) factors previously mentioned; (b) differences between actual and estimated amounts due as a result of changes in interest rates and other factors; and (c) guaranty associations which may be, or anticipate, experiencing capacity limitations.

Anticipated funding period: Annual payments due April 1992 - 2001

Bullet payment paid June 1998

Either:

- Defeasance payment due May 2002 (as reflected in the attached schedule), or
- On-going installment payments well beyond 2002, due April of each year.

OPEN INSOLVENCIES

This section contains estimated costs by insolvency, by state, by line. The insolvencies listed reflect those, which are still in an "open" status with no assumption reinsurance agreement being closed, or those that are anticipated to close in the near future.

Bankers Commercial Life Insurance Company

New case in 2000, placed into liquidation 6/00. Costs estimates include minor reserves for life policies, unearned a&h premiums and IBNR claim reserve. In addition, cost estimates include claims paid by the guaranty associations, net of premium collections, through September 01.

Fidelity Mutual Life Insurance Company

Total costs reflect NOLHGA expenses incurred, no current plans for guaranty association participation.

Monarch Life Insurance Company

Total costs reflect NOLHGA expenses incurred, no current plans for guaranty association participation.

CLOSED IN 2001 INSOLVENCIES

This section lists those costs associated with assumption reinsurance agreements that have closed during 2001 or with outstanding claim benefits paid by Guaranty Associations in 2001.

American Chambers Life Insurance Company

New case in 2000, placed into liquidation 5/00. Costs estimates include estimated reserves for life and claims paid directly by the guaranty associations. Increase from prior year the result of additional claims and expenses incurred by the guaranty associations.

Fidelity Bankers Life Insurance Company

Business sold: Closing 6/12/93. Costs reflect expenses incurred by NOLHGA. Increase from prior year the result of certain guaranty associations participating in and funding a supplementary agreement during 2001.

Guarantee Security Life Insurance Company

Costs reflect both the Guaranty Association funding required to establish GRC and the funding required in the sale of the business via assumption reinsurance. The sale of the business closed 11/97. Costs include the initial \$32 million capital contribution. Guaranty Associations anticipate receiving a liquidating dividend in future year as GRC operations wind down.

CLOSED PRIOR TO 2001 INSOLVENCIES

This section lists those costs associated with assumption agreements which have been closed prior to 2001. Since Guaranty Associations may fund their participation in an assumption reinsurance agreement through the use of a note or borrowing the funds, it is possible that actual assessments may not have been levied against member insurance companies. Therefore, the enclosed data is being provided so that you can determine if assessments have been paid or whether an accrual needs to be established.

ALL AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and exclude many costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

ANTICIPATED FUNDING SCHEDULES

Anticipated Funding Schedules

This section contains Anticipated Funding Schedules, by year, for the following insolvencies:

- Executive Life Insurance Company

Included for your benefit is a reconciliation between the “Total Anticipated Funding Schedule” and the insolvency costs reflected in the “Overview Open and Closed Insolvency” report.

Actual assessments by Guaranty Associations most likely WILL NOT match the enclosed funding schedules, particularly in states which may be experiencing capacity limitations. Therefore, this data MAY NOT be utilized in protesting actual GA assessments.

Please refer to the applicable section for more detailed comments regarding a specific insolvency contained within this section.

These schedules are provided solely for use by member companies to discount the pro rata share of the insolvency costs at a rate applicable to the member company, if the member company chooses to do so. You may wish to confirm this practice with your auditors or insurance department prior to making your calculations and for any guidance that may be available regarding the applicable discount rates(s).

1988 - 2000**

This section contains the Total Assessable Premiums for the periods 1988 through 2000 by state, by account, by year. The data is obtained from the final Assessment Data Surveys as filed by member companies. **The premiums for 1988 through 1993 include all changes as a result of the 1988 - 1993 Assessment Data Resurvey.** Results of the resurvey were released to Guaranty Associations and insurance commissioners June 30, 1997.

Guaranty Associations are free to adjust the Assessment Data Survey premiums furnished them for any number of reasons (i.e. companies file corrected surveys, formula error occurred in the compilation of the data, companies are added/deleted from the premium base, the Guaranty Association uses a premium basis other than the Assessment Data Survey, etc.). Because of these adjustments, the premium basis used in the actual assessments by Guaranty Associations may differ from the enclosed data. Therefore, the enclosed material MAY NOT be utilized in protesting actual Guaranty Association assessments. **Neither NOLHGA nor the Guaranty Associations will attempt to "reconcile" the enclosed material to that used in actual assessments.** The data is provided to you solely to aid your company in determining its market share and related share of the insolvency costs.

The data may be used to estimate your company's pro-rata share of the estimated costs for all insolvencies. This may be accomplished by calculating your share of the assessable premiums and applying that factor to the estimated insolvency costs. Premium figures for your company will need to be obtained from your records, neither NOLHGA nor the Guaranty Associations will provide company specific premium information. Note: When calculating your pro-rata share of premiums, please remember to use your 88-93 resurvey premiums as opposed to those originally filed.

Following are some methods that may be considered in calculating your company's pro-rata share. **NOTE these are not meant to be definitive accounting guidelines in determining guaranty assessment accruals, but are only offered as food for thought.**

- Determine Company's premium on a state level, by account basis and divide by state, by account totals indicated in enclosed material. Apply this factor to the enclosed cost data on a by state, by account basis. This method most likely is the most accurate in determining a company's pro rata share of the costs, however, it may also be the most complex to establish.
- Determine Company's premium on a state level basis and divide by state totals indicated in enclosed material. Apply this factor to the enclosed cost data on a by state basis. This method generally ignores the type of market a company writes in. Somewhat less complicated than above approach, probably is not much of an extra effort to go one step further and determine by account share.
- Determine Company's premium in states that DO NOT have premium tax offset provisions and divide by applicable state totals indicated in enclosed material. Apply this factor to the enclosed cost data for these same states. This method follows the assumption that no accrual is necessary in those states with premium tax offset provisions, provided recoverability tests show that the assessment can be recovered through future premium taxes. However, it most likely does NOT conform to the provisions of Paper No. 35 and SOP 97-3 since tax recoveries may need to be reflected separately as an asset.
- Determine Company's premium on a countrywide, by account basis and divide by countrywide, by account totals indicated in enclosed material. Apply this factor to the enclosed cost data on a countrywide, by account basis. Most likely the least accurate method, however, probably the easiest to administer.
- Develop premium basis under above methods based on particular state provisions (i.e. 3 year average prior to year of insolvency, 1 year prior to year of assessment, etc.). A summary of state provisions is provided, however you are cautioned that this information HAS NOT been verified with the guaranty associations.
- Incorporate applicable premium tax offset provisions into above methods, subject to recoverability testing. Be sure to reflect tax recoveries as an asset as opposed to netting them against the accrual estimate if required.

Neither NOLHGA nor the Guaranty Associations make any representations or warranties as to the accuracy of the enclosed data.

ALL AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and exclude many costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

**ASSESSMENT AND
PREMIUM TAX
OFFSET PROVISIONS**

Assessment and Premium Tax Offset Provisions

The enclosed material was obtained through a cursory review of available information to NOLHGA. You should check each applicable state insurance statute prior to using the enclosed.

Assessment basis and capacity rates may affect the accuracy of accruals a company establishes for Guaranty Association costs. The enclosed information is provided to aid your company in establishing the most accurate accrual possible, however it should be verified with individual state statutes should you choose to do so.

Tax offsets may be considered when establishing your accruals for Guaranty Association assessments, where allowed. However, recoverability tests should be conducted to ensure that such an offset is reasonable. Such offsets may need to be reflected as an asset as opposed to netting against the liability; be sure to review the provisions of Paper No. 35 and SOP 97-3 for proper treatment.

Neither NOLHGA nor the Guaranty Associations makes any representations or warranties as to the accuracy of the enclosed material.

Tax Offset

Summary of state life and health insurance guaranty association statutory provisions for credit against assessments paid

ALABAMA

§27-44-13(a). Yes. Up to 20% of assessment amount may be offset for 5 years after payment. Covers all assessments but administrative expenses.

ALASKA

No provision.

ARIZONA

§20-692. Yes. Member insurers may offset pursuant to a certificate of contribution issued from 1987 through 1994: for 1991, 7%, for 1992, 9%, for 1993, 11%, and for 1994, 13%. The total amount of the offset may not exceed 100% of assessment. An insurer may not offset premium tax liability unless the assessment for which the first year credit is claimed was collected by the guaranty fund in the calendar year for which the insurer seeks to offset its taxes. Beginning in 1995, member insurers may offset 20% of the assessment for the year of assessment, and 20% of the assessment per year for the succeeding four years. The total amount of the offset may not exceed 100% of the assessment.

ARKANSAS

§23-96-115(j)(1)(A). Yes. Up to 20% of assessment amount may be offset for 5 years after payment; covers all assessments but administrative expenses.

CALIFORNIA

§1067.08(i)(1). Yes. No tax offset provided by law; however, a health insurance assessment recoupment is permitted by way of policyholder surcharge. Member insurers are required to recoup over a reasonable length of time a sum reasonably calculated to recoup the assessments with respect to the health insurance account paid by the member insurer under this article by way of a surcharge on premiums charged for health insurance policies. Amounts recouped shall not be considered premiums for any other purpose, including the computation of gross premium tax or agent's commission.

COLORADO

§10-20-113. Yes. 100% of Class B assessment amount made on life and annuity accounts may be offset for 5 years following payment at the rate of 20% per year. The total amount of all offsets for all member insurers can not exceed \$4 million per year. Offsets will be prorated if the total amount of offset would exceed \$4 million in any year. Carry forward of offset is permitted when cap is exceeded. Member insurers writing health insurance can recoup assessments costs by way of a surcharge on premiums.

CONNECTICUT

§38a-866(h). Yes. 100% of assessment amount may be offset for 5 years following payment at the rate of 20% per year.

DELAWARE

§4413(a). Yes. Up to 20% of assessment amount may be offset for 5 years following payment; covers class C assessments only.

§35-1950. Yes. Up to 10% of amount assessed may be offset, spread over 10 years following payment; covers all assessments but administrative expenses.

FLORIDA

§631.72. For assessments levied before Jan. 1, 1997 member insurers may offset 0.1% of the assessment, less any refunds, for each year following the year in which the assessment was paid until the total of all offsets claimed for a given year's assessment equals the amount of the assessment paid in that year. For assessments levied or paid after Dec. 31, 1996, member insurers may offset 5% of the amount of the assessment, less any refunds, for 20 years following the year the assessment was paid. Member insurers may not offset both premium taxes and corporate income taxes for the same assessment amount. Tax returns covering tax year 1997 will be the first on which member insurers may claim a credit. (Eff. 10/1/96)

GEORGIA

§33-38-22. Yes. Up to 20% of assessment amount may be offset for next 5 years following payment. Tax offset covers only Class B assessments.

HAWAII

§431:16-213. Yes. Up to 20% of assessment amount may be offset for the 5 years following payment; covers all assessments except administrative expenses.

IDAHO

§41-4313. Yes. Up to 20% of assessment amount may be offset for 5 years following payment. An allowable offset, or any portion thereof, not used in any calendar year cannot be carried over or back to any other year.

ILLINOIS

215 ILCS 5/531.13. Yes. In the event the aggregate Class A, B and C assessments for all member insurers do not exceed \$3,000,000 in any one calendar year, no member insurer shall receive a tax offset. However, for any one calendar year before 1998 in which the total of such assessments exceeds \$3,000,000, the amount in excess of \$3,000,000 shall be subject to a tax offset to the extent of 20% of the amount of such assessment for each of the 5 calendar years following the year in which such assessment was paid and each member insurer may offset the proportionate amount of such excess paid by the insurer against its premium tax. Tax offset provisions will expire and be given no effect for any tax period, beginning Jan. 1, 2003. (Eff. 5/29/98)

INDIANA

§27-8-8-16. Yes. Up to 20% of assessment amount may be offset for each calendar year following payment, until the aggregate of those assessments have been offset by either credits against specified taxes or refunds from the association.

IOWA

§508C.19. Yes. Up to 20% of assessment amount may be offset for 5 years following payment.

KANSAS
